

FATEMEH DAMAVANDI

MID-LEVEL PRODUCT SPECIALIST AI PRODUCTS • TECHNICAL EXECUTION

fdamavandi529@gmail.com • github.com/fateme529

SUMMARY

Mid-Level Product Specialist with ~3 years of hands-on experience across product roles, freelance work, and AI-focused delivery, supported by a software engineering background. Experienced in translating product needs into feature scopes, user/system workflows, UX decisions, QA/QC, and implementation-ready specifications, with technical fluency that enables close collaboration with engineering through delivery.

CORE SKILLS

PRODUCT	Product Management • Product Discovery • Product Strategy • Product Analysis • Feature Definition • MVP Development
DELIVERY & UX	UX / User Flows • System Workflow Design • Agile / Scrum • Product QA/QC
AI PRODUCT	AI Product Design • AI Feature Design • Prompt Engineering • AI-assisted Development
TOOLS	Figma • Git / GitHub • SQL • PostgreSQL
TECHNICAL	REST APIs • C • C++ • C# • HTML / CSS

EXPERIENCE

Product Specialist — AI Product & System Design | LinkUp Jul 2026 - Present

- Own AI-focused product definition and collaborate closely with engineering to translate requirements into feature scopes, user/system workflows, interaction logic, and implementation-ready specifications.
- Directly develop assigned AI product functionality, connecting product decisions with technical execution and delivery.
- Performed product QA/QC on the LinkUp platform, validating feature behavior, user flows, and implementation quality before release.

Product Specialist | Go2Pal May 2025 - Jun 2026

- Translated user, business, and market needs into actionable Product Requirements, User Stories, Acceptance Criteria, end-to-end User Journeys, and User Flows, identifying pain points and opportunities to improve usability.
- Partnered with Product, UI/UX, Engineering, and QA throughout discovery, design, development, testing, and release; reviewed page structures, forms, navigation, prototypes, and implemented solutions against business logic and user scenarios.
- Conducted Functional Testing, UX Testing, and UAT; identified edge cases, documented bugs, and followed issues through resolution to ensure alignment with defined requirements and acceptance criteria.
- Synthesized user and stakeholder feedback with Market Research and Competitive Analysis to prioritize product improvements based on user needs, business value, product impact, and technical constraints.
- Maintained Product Documentation, Feature Specifications, User Flows, and product processes; supported Release Planning and evaluated delivered features to guide continuous product iteration.

Freelance Project Contributor | University Collaborations Jan 2024 - Apr 2025

- Completed project-based work alongside B.Sc. studies, collaborating with university professors on academic and technical software projects.
- Built hands-on projects across C++, C#, SQL, HTML/CSS, and Git/GitHub, including a Tehran Smart Transportation System project using Dijkstra route optimization; selected work is available on GitHub.

EDUCATION & CERTIFICATIONS

B.Sc. Computer Software Engineering — Bu-Ali Sina University Sep 2021 – Dec 2025
Product Specialist Bootcamp — Diginext Academy (In Person) Aug – Oct 2025

MCI ACADEMY — PRODUCT CERTIFICATIONS Product Discovery • Product Development with Scrum • Product Strategy • Product Analysis • Principles of Agile • Design Thinking • Technical Knowledge for Product Managers • Soft Skills for Product Managers
